Circus Entertainment

Aerial • Ground • Fire Dancer

Steel, Fabric, and Fire

“The Elements of Circus”

Megan is a professional cirque style performer that is a cut above the rest. A highly skilled, vetted showstopper, Megan has the widest array of apparatus acts available in the Midwest. Silks? Of course. Lyra? You bet! She even has trapeze, sling, cube, chains, pole, lollipop lyra-pole, and more to offer.

But, it doesn't stop there. In this show “Steel, Fabric, and Fire: The Elements of Circus” Megan takes your audience through a journey of ground acrobatic dance, high-flying aerials, and the allure of spinning fire! Not sure if your venue can accommodate fire? No problem, Megan can adjust the show to include mesmerizing LED prop manipulation.

Depending on your needs, Megan can adjust the show to include audience participation (from their seats) as well as the music, acts, costuming, and timing (suggested 15-30 minutes). Rest assured; however the show is planned, your audience will be amazed and remember the performance long after the event.
